

ADVANCE CERTIFICATION COURSE IN DATA SCIENCE

About Course

World-renowned corporations have multiplied their business growth through Data Science and Machine Learning (ML) applications guided by a data-driven decision-making approach. ML is used in approximately 77 percent of the devices we currently use. To ensure that businesses are future-ready in today's digital era, they need skilled talent to leverage data science and machine learning's exponential potential for automation, effective decision-making, and competitive advantage. The Indian Institute of Technology Delhi (IIT Delhi) has designed a six-month online Certificate Programme in Data Science & Machine Learning to meet this demand. This high-impact programme will enable you to leverage the expertise of IIT Delhi's renowned faculty in an immersive industry-oriented learning pedagogy to develop robust predictive and prescriptive models with hands-on experience in ML algorithms and statistical models. Develop an in-depth understanding of in-demand data science and machine learning tools and techniques using Python to become industry-ready.

Features

- ❖ Course with hybrid learning practice exercises + Weekly Assignments.
- ❖ Offline projects.
- ❖ Faculty guidance
- ❖ Industry Oriented Curriculum and hands-on practical training program taught with class assignments.
- ❖ Highlight the exclusive course certificate on your CV/ LinkedIn/ Website.
- ❖ Certificate shall be provided at the end of the Course.

Learning Outcomes

- ❖ Develops relevant programming abilities.
- ❖ Demonstrates proficiency with statistical analysis of data.
- ❖ Develops the ability to build and assess data-based models.
- ❖ Executes statistical analyses with professional statistical software.
- ❖ Demonstrates skill in data management.
- ❖ Learn to apply data science concepts and methods to solve problems in real-world contexts and will communicate these solutions effectively

Learning Outcomes

- ❖ **MODULE -1 Python Programming**
- ❖ **MODULE -2 Data Visualization**
- ❖ **MODULE-3 Power BI**
- ❖ **MODULE-3 Web Scraping**
- ❖ **MODULE-4 Statistics**
- ❖ **MODULE-5 Machine Learning**
- ❖ **MODULE-6 Deep Learning**
- ❖ **MODULE-7 Computer Vision Open CV**
- ❖ **MODULE-8 Natural Language Processing**
- ❖ **MODULE-8 GIT Hub for Data Sciences**
